

IVAN'S BED AND BREAKFAST BACKYARD BIRD LIST (WITH MAMMALS)

To follow is a list of the 135-plus species of birds (and a handful of mammals) that have been sighted on or very near the property of Ivan's Bed and Breakfast in Gamboa, Panama, as of May of 2011. For the purposes of this list, the term "backyard" is defined as the area within roughly a 50 meter radius of the property, a rather fair definition, as these species might potentially be observed while still in pajamas and carrying your morning cup of coffee!

Avian taxonomy is updated according to the 51st supplement to the American Ornithologists' Union Checklist of North American Birds. This list has been compiled by Ken Allaire, Panama Gateway Birding Tours (www.panamagateway.com), but we gratefully acknowledge the contributions of numerous guests at Ivan's B&B. Please be so kind as to advise us as to errors/omissions!
